### Junior Hockey Club Rarin' to Go

A meeting of the Junior Club was held Thursday night in the assembly room of the school. R. D. Farries was in charge and various business matters were transacted. It was decided to purchase new hockey suits in black and white for the club. This organization has been anxiously awaiting the advent of cold weather to get into practice for the coming season.

### Turkey Buying Days Again a Success

Regardless of the very cold weather, over 9000 lbs. of dressed turkeys were shipped out this district, as the result of the buying days held here on Dec. 6 and 7. This method of marketing dressed poultry is proving more popular every year, as it eliminates all the extra expense of shipping, which often takes more than the difference in price which might be received.

Horace Gill wishes to advertise that he will buy dressed turkeys, any quantity until Tuesday, Dec. 13th. See him for prices, etc.

### Lodge Meetings Postponed

The lodge meetings of the B. P. O. E. and Royal Purple were postponed on Tuesday evening due to cold weather.

### Local and General

Mrs. W. Tyler is seriously ill in the Vulcan hospital, and very little hope is held for her recovery.

For Him!—A smart new dress shirt or an extra nice pair dress socks. See them at Campbell's.

Mrs. Ruby Fitzpatrick of Vulcan was the guest of Mr. and Mrs. A. Voisey and Mr. and Mrs. A. Nelson last week.

Mrs. Alex McDougall was a Calgary visitor recently.

Mr. and Mrs. J. Hagerman entertained at bridge on Saturday evening.

Mr. Simpson of Edmonton, auditor for the Alberta Government Telephones, visited the local exchange Tuesday.

Harry Higgins returned home this week from Calgary where he has been attending the Alberta Wheat Pool convention.

Every purchase of one half pound of candy at Lattif's entitles you to an estimate of the number of candies in a jar, the nearest estimate winning the beautiful Westinghouse radio on display in the store.

K. R. McLean, R.O. of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, Dec. 23rd at the Drug Store.

Mrs. Louis P. Schwartz and family wish to thank their many friends and relatives who came to their assistance in their recent sad bereavement, and for the beautiful floral tributes received.

The names of Andrew Fath, August Siegel and Mr. and Mrs. Alphonse Beingsommer were omitted from those attending the funeral of the late L. P. Schwartz, in the Chronicle last week.

### O.E.S. Elects Officers for 1933

The Champion Chapter No. 30, O.E.S. met in regular meeting December 1st. It being the annual meeting, the following officers were elected:

Worthy Matron—Mrs. G. Dupas.  
Worthy Patron—J. S. Collins.  
Associate Matron—Mrs. J. O. Bell.

Associate Patron—G. Voisey.  
Conductress—Mrs. W. A. McIntyre.

Associate Conductress—Mrs. R. A. Clements.  
Secretary—Mrs. A. W. Jopling.

Treasurer—Mrs. W. E. Williams.  
The appointments were not complete at date and will be announced later.

### Large Crowd Attends Elks Dance and Barbecue Supper on Friday

The dance held on Friday evening, Dec. 2 under the auspices of the Elks drew a large crowd, Barons, Carmaings, Mio and Vulcan sending representations. The music was excellent and the supper served at mid-night enticing. The Elks are to be highly congratulated on their success, and undoubtedly any future dance under the same auspices will be eagerly looked forward to. The financial result was decidedly satisfactory.

### Annual Meeting W.I. to be Held Tuesday

The annual meeting of the Champion Women's Institute will be held at the home of Mrs. D. D. Farmer on Tuesday, Dec. 13, at 2:30 p.m., when the yearly reports will be read and the officers for the new year elected. There will be an exchange of Xmas gifts at this meeting and a prize for the best wrapped parcel.

Roll call—Christmas memories—Refreshment convenses—Mrs. D. Smith.  
A full attendance of members is requested.

### New Grocery Store for Champion

A new grocery store opened Tuesday, December 6 in the premises formerly occupied by J. Stephenson. M. Sigal is the proprietor, and brings to the business an experience of many years. He has secured the residence known as the old teachorage as living quarters and is already settled there with Mrs. Sigal and family.

### Champion United Church Rev. Peter Dawson, Minister

Sunday, December 11th.  
Bison Morning Worship, 11:30 a.m.  
Yatwood Divine Service, 3:30 p.m.  
Champion Sunday School, 11:00 a.m.  
Champion Evening Worship at 7:30 p.m. Subject: 4th in series, "Love's Wife."

Advertisements of Wanted, Lost, Found, Stowed, etc., not exceeding one inch, 50 cents for first insertion 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, Dec. 8, 1932

## NOTES AND COMMENT.

### Alberta Winnings at Chicago

Depressed economic conditions appear only to act as a stimulus to Alberta live stock and grain exhibitors in their efforts to beat their previous records in the international exhibitions. Once more the world wheat championship has come to Alberta from Chicago, the victory going to Herman Trelo, of Wembley, in the Peace River District, for the fourth time, as a result of the judging in the Chicago international show the past week. This record has never been equaled in the international show. Trelo won this year with a sample of Howard wheat. Three more championships came to Alberta, last in oats going to Fred Hann, of Grande Prairie district, a new exhibitor, that in timothy going to Erich Anders, of Wembley, and that in alfalfa going to Fred Ohman, of Scandia, south-east of Calgary.

In spring wheat, seven out of the first ten prizes went to Alberta exhibitors at Chicago, second prize going to E. Wilford, of Stavely. In all some 20 prizes in wheat came to this province.

Alberta exhibitors got seven prizes in the barley classes, and seven in the field pea classes, three in navy beans and one in rye, four in timothy, four in flax and two in alfalfa.

### An Interesting Review

The third annual review of the world grain market situation by United Grain Growers Limited, which was presented at the annual meeting of that Company held recently in Saskatoon, has just been published. As in previous years, the review contains a concise summary of statistics relating to world production of and world trade in wheat, and at the same time discusses various developments in the wheat situation. It is pointed out that there is still, as there have been for several years, special circumstances connected with the supply of wheat, which would make fairly low prices inevitable. But the general depression which now for over three years has afflicted the world is considered even more important as a depressing factor in prices. This year's world production outside of Russia and China is practically the same as last year, not more than can be consumed within a year, probably less than consumption would be under conditions which would permit a normal flow of trade and larger consumption of wheat in importing countries where prices have been kept very high by tariffs. Developments in the United States, in Russia, in Great Britain and in continental Europe, are discussed, and the whole review will repay careful reading.

It is understood that a copy has been mailed to each shareholder of the Company, while others interested may procure copies at any elevator or office of United Grain Growers Limited.

### Trans-Canada Highway

Alberta's section of the Trans-Canada highway is now practically completed, according to Hon. O. L. McPherson, Alberta Minister of Public Works. The section is now a surfaced highway from the Saskatchewan border through Medicine Hat and Calgary to the western boundary of the province.

### Grant to University Library

Carnegie Institute has granted the sum of \$15,000 to the library of the University of Alberta. The fund is payable over a term of three years and is to be used for the development of the library as a factor in the work of the arts college.

The so-called law of compensation promises that when we are able to check our taxes we shall have to tax our checks.

**Lower the Cost of Producing Beef**

There is a cost line running through every animal on your farm

**Get More Out of Feed Crop**

Fully 50,000 farmer owners of Letz Mixed Feed Makers have positively proved that you can lower the cost of producing beef, pork, mutton and dairy products with the Letz System of Home Crop Feeding. Their results show that Letz Mixed Feed Makers will:

1. Save 25% to 50% of present feed crop by utilizing waste.
2. Reduce up to 30% of your present feed crop savings for cash crops.
3. Increase milk and meat production up to 50% through better feed preparation.
4. Save up to 25% of labor in handling feed crops.
5. Improve health and condition of all farm animals.

Come in the next time you are in town and let us show you how the Letz Mill will solve your feeding problem for you.

# Good Progress Being Made With History Of The World War Now Being Compiled In Britain

With twenty-nine of the probable forty volumes of its history of the world war now completed, Great Britain is well ahead of all the other belligerent powers in the preparation of an official story of the events of the years 1914-1918 for the benefit of the world as well as of posterity. It is thought that the last volume will be ready twenty years hence, but that is really more of a guess than a certainty.

From the historical section of the committee of Imperial Defence, under whose aegis Britain's comprehensive memorial of the past and guide for the future is being prepared, this correspondent has just obtained a detailed account of how the first Herculean task is being handled. So far it has cost 200,000 pounds sterling, though that total includes the cost of archival work which would have to be done anyway.

Of the histories completed there are: Naval Operations, 5 volumes; Merchant Navy, 3; Beaches, 3; Gallipoli Campaign, 2; Egypt, Palestine, 2; Mesopotamia, 4; and Togoland and Cameroons, 1. In addition to these 20 volumes there have also been issued five of the contemplated twenty dealing with the western front, three of the five dealing with the war in the air, and another in diary form entitled "Principal Events of the War."

At the outset of the war the British war service numbered 600 vessels of all kinds. But by November, 1918, this force had been increased to 5,081. Each unit kept complete records of all events and movements of every hour of the day in the logs, which never numbered fewer than six in current service, and often as many as fourteen in a flagship.

It is estimated that the total number of naval logs kept during the war approximates 1,500,000. But in the preparation of narratives of the major actions recourse is not had to these original documents, for the salient points in each have been entered on cards for more easy reference. It is to be remembered, too, that telegrams passing in and out of the admiralty amounted to at least 1,000 daily, or 1,750,000 during the war. There were, besides, countless reports and Admiralty papers.

The records of the air service are only less formidable than those of the admiralty.

The vast mass of material at the disposal of the official historians has to be arranged and sifted by a staff of archival experts, one of whose duties is to discard tons of papers dealing with matters of no permanent historical importance.

The authors appointed have the assistance of a small staff of technical specialists, including cartographers. The forty-volume history will be illustrated by hundreds of maps, diagrams, sketches and charts, apart from photographs of the outer theatres of war without which it would be almost impossible to convey the types of country in which the operations took place.

When once the narrative is committed to paper in chapter form it undergoes the minutest checking. Hundreds of copies are dispatched to officers who took part in the particular action dealt with, and after their criticisms and suggestions have been considered and, in many instances, adopted, the chapters are forwarded to the appropriate service department for remark. In one instance a chapter was submitted to 573 officers.

No other belligerent nation, it is asserted, can show such progress with their histories, although many are said to employ far larger staffs at much greater cost. Those who carry at the cost of the work are reminded that to date the expenditure represents, roughly, half an hour's expenditure by the British in warfare during the last year of the conflict. Besides producing this colossal work, the historical section has to deal with thousands of inquiries from other department, regimental historians, staff colleges and the war graves commission, many of which require prompt reference to the records. The circulation of draft chapters of the history entails alone the writing of 4,000 letters.

It was explained to this correspondent that even in 1914 steps were taken to collect and arrange the records as they were received for the subsequent compilation of the official history. The actual writing was begun in 1916. The number of records which have to be consulted is stu-

pendous. On the military side alone the historians have immediately at hand at least 300,000,000 sheets of documents and 80,000 maps. All of these are from the theatre of operations and do not include any of the multitude of "home" papers, such as war office files and the untold accumulation of other records.

By Ruth Rogers

779

IT'S SIMPLICITY ITSELF TO MAKE THIS CHARMING DRESS.

Here's an individual dress you'll just love for its interesting detail. It's cut rather along slenderizing lines, making it equally suited for the slim or the matron.

The draped treatment of the bodice is a very smart. And note that the tucked sleeves, lightened at the wrists adorable.

A satin crepe is stunning for to fashion it.

You can also use rough crepe silk, which is extremelyy voguish. Wool crepe would also prove a charming medium.

Style No. 779 is designed for sizes 16, 20 years, 24, 28, 40 and 42 inches bust. Size 26 requires 3 1/2 yards of 36-inch material with 3/4 yard of 24-inch all-over lace.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

What Has Education Done?

Fails To Prepare The Mind For a Better Understanding Of The World

World

If modern Europe did not see that it was an imposition to ask vast areas of a nation while it kept her from exporting goods, what education has been doing to prepare for an understanding of the world? Ordinary education simply did not equip millions of people to see what they are doing.

If education does not change, there lies ahead some kind of dictatorship, possibly Fascism. This means the end for all of us.

What has education done when we all go ahead and intensify economic nationalism of all sorts, raise tariff barriers and refuse to disarm? When we see nations go to the same destructive way, we must ask, What has education done?—Sir Norman Angell.

MAGISTRATE: "Well, have you children to say?" PRISONER: "Yes, Gov'nor. Any'n' doings loves me."—The Passing Show, London.

Heroine To Fisher-Folk

Woman Missionary Has "Boxy Life With Herring Fleet

Writing to the News-Chronicle from the Salvo's Home at Lovestoft, England, is correspondent tells of "the mother of the herring-fleet," Sister Wray, of the Scottish-Speical Mission to Fisher-folk. "You must have been in some dry land in mid-winter, crossing the mad tundra of The Little Minch over to the Hebrides or tossing in the gales that whip the waters between the mainland and the Orkneys.

"Once at Stromsay, in the Orkneys, she had an 808 from 200 fisher-girls at Stromness on another island. There was no way of crossing for days, but a drifter skipper put out with her aboard and after eight hours Sister Wray reached the girls between 7.30 and 11 o'clock that evening she had treated 80 cases of wounds and septic poisoning among the girls who use the hunting knife.

"On another occasion she travelled with a dying fisherman from Stromsay to Kirkwall in a small craft in terrible weather. The boat struck a sunken and through that trying time Sister Wray just stayed by the side of the stricken man and carried on her nursing. We meet the drifters in," she told me, "and sometimes I have to call on the wives and break bad news." Sister Wray's whole life is spent following the herring fleet, she said, "and sometimes I have to call on the wives and break bad news." Sister Wray's whole life is spent following the herring fleet, she said, "and sometimes I have to call on the wives and break bad news."

World Make For Happiness

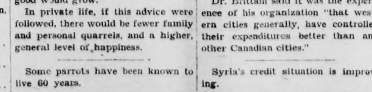

If People Could Get Rid Of Excess Mental Baggage

From a New Zealand lecturer comes an excellent and wise piece of advice. Miss Ella Edith Bates recently said: "We carry too much excess baggage in our minds; old failures, old unhappinesses, old hurts. If at the conclusion of each day, we emptied our minds of the ill, retaining only our happy experiences, we would not only sleep soundly, but a more positive and optimistic form of thought would be generated. Our faith in good life would grow."

In private life, if this advice were followed, there would be fewer family and personal quarrels and a higher, general level of happiness.

Some parrots have been known to live 90 years.

AS DEATH RUSHED BY A SPEED DEMON

Frank Sues probably wouldn't give a thin dime for his chances, nor would anyone else who witnessed this scene, when this photograph was made during an auto race at Los Angeles. The car in which Sues was travelling at terrific speed is shown in the remarkable "shot" as it cast two wheels throwing the driver out of the cockpit. Sues slid 50 feet across the track in the path of oncoming cars, but miraculously escaped injury. A few minutes later he was at the pits looking for another car to drive.

# Tree Planting Car Of The Canadian Forestry Association Completes Season's Work

Completing its season's work which during the past six months has taken it over 1,800 miles on the Canadian Pacific Railway Lines, in both Alberta and Saskatchewan, the tree-planting car of the Canadian Forestry Association arrived in Regina recently, where the car will remain for the winter months.

Travelling over a large area of both southern Alberta and Saskatchewan, the car visited large districts where nature has not been kind during the past three, and even four years, where conditions have been better. In fact stops were made in all kinds. At every meeting held during the year, the increased interest in tree planting, and home beautification, was most noticeable, stated Alan Bevan, in charge of the car. In Alberta the car visited 43 towns, held 35 meetings to 11,000 people. The tour in Saskatchewan covered a longer route, 90 towns being visited, 214 meetings held, with a total of 30,214 attending. The total number who were present for lectures was 51,004, and this exceeds by a large margin the record of any previous year, over the same period. At many stops a second meeting, after the regular evening one, was found necessary to accommodate all who came, many farmers people driving in from ten to fifteen miles from town.

A most encouraging feature, is the increased interest amongst the younger people. Without doubt they are becoming tree conscious. This promises a great deal for the future success of tree planting. Many of those called at the car, and others retained for the lecture, to ask questions, and secure information on many phases of the work. A few years ago this was unusual. Mr. Bevan tells of one young boy, who rode 7 miles on horseback to be prepared for the meeting, bringing with him valuable assets, amounting to 10 cents. His worry, that his amount, all he said that he had, would not be sufficient to gain him admittance, was quickly changed to anything but worry, on learning that he would not only see the programme, but still retain his money.

Amongst the older people, the confirmed believer of a few years ago, in the impossibility of having success with trees, has disappeared. Many still have the problems, of the necessary time, and labour; required to build up belts, as well as, other drawbacks to contend with, but all are sympathetic, and aware of the many advantages. One man and his wife drove in 12 miles to secure information, at the car, unable to remain for the meeting, they said that they had found out what they wanted, and that their trip had been well worth while. The open discussion period, at the end of the lecture, has become a popular feature, and valuable points are expressed by experienced and successful tree planters. Many a number of years in certain districts, who previously have done nothing to beautify or protect their homes, stated their intention of making a start. Two from points widely apart, one on the Sas Branch, the other near Calgary, had been in their districts 25 years, and had made no attempt to build up a permanent home. We have lost a lot of time, they both said, but next year a start will be made.

For a month the car travelled

through the southern border of the parkland areas, and here been interested, was shown at every stop, the importance of tree planting, to eliminate burning to clear land, waste in cutting, and an utter lack of appreciation of this native growth, has been cleared, many districts, but a few years ago densely covered by native trees, that the farming people surrounding have lost their protection, are beginning to suffer from many of the troubles of the southern Prairie Farmer. Strange as it may sound, over large areas, which when settled was bush country, soil-dirt is becoming a major problem. Most of these people, are now, well aware of their mistakes, and are not only doing considerable planting, but allowing, very wisely, trees to again take over many acres of non-agricultural land.

The last three, and even four years, in many districts, has not been kind to the planting of trees. During this time it has been a most difficult thing to keep many of our older trees alive, and almost impossible to set and maintain one blade of wheat or grass. But it is under just such conditions, that we have been having, that trees can do so much for us. It is not surprising at all, that in such districts, we have lost large numbers of trees, but absolutely amazing, the large numbers which are still alive. As the car travelled through the Sas Branch and Assiniboia many fine belts were to be seen, in which no loss of trees had taken place, and they applied to many tree plantings. That trees have come through, under conditions which have made it impossible for the farmer to raise one blade of wheat or what is well known for its hardiness proves that we have trees that can stand the hardest knocks the Prairie has to offer. The ones who have died out in such large numbers have been the willows, poplar, and aspen, which grow rapidly, but are not so hardy as the trees that have been able to withstand our periodic severe conditions. These trees have their place, for quick protection, for fuel, and fence-posts, and planting around low spots, or dug-outs, but have no place in permanency. The ash, elm, cedar, the evergreens, and of course the conifers, have come through with flying colours. Not only have they been able to live, but in even the worst districts, they have even been able to grow. That we have trees of this type, places tree plantings in a position to do a very good basis. The future planter may use them with complete confidence. The future success of tree planting on the Prairies is assured.

Famous Cow Path

Valuable Property In Chicago Can Be Used For No Other Purpose

A cow and her calf actually went down the world's most famous cow path in Chicago recently.

Visiting political citizens wondered what it was all about, busy and her offspring posed for photographers in the concrete-paved path a few rods from 100 W. Monroe street. The cow and the calf did this to advertise the International Livestock Exposition.

The path is 377 feet long, 10 feet wide, and worth \$177,000.

When William Jones sold the surrounding tract in 1833, he reserved the right to use the path for his cows. He made his reservations so binding that the path remains, even though no cow had trod it for 50 years. A 22-story building is on the site, utilizing air rights above the path.

Long Distance Vision

From an altitude of 21,000 feet, an aerial photograph was made recently which covers 250 miles of territory. The picture was taken from a point 30 miles south of the Golden Gate, and shows both San Francisco and Mount Diablo, which are 250 miles apart, says Popular Mechanics Magazine.

It was made by army air corps photographers who utilized the invisible infrared light through a special filter.

Fluorites Are Generous

Six enormous diamonds have been added to the splendid farm of brilliant which encircle the famous picture known as the Madonna of Pompeii. The huge church at Naples, Italy, which is built in honor of the picture has been crowded with pilgrims most of whom gave their mite towards buying the new diamond.

Temperature of Venus is thought to be about 10 degrees below zero. Fahrenheit, both day and night.

## BRITAIN MAY PLACE BAN ON U. S. IMPORTS

London.—The new British note to the United States says that Canada contains a carefully worded, but none the less significant, warning that if the United States insists upon payment of the December 15 installment the United Kingdom will be forced to take measures restricting imports of American goods.

It is emphasized in high government circles that while in the new note the British argument is fully stated and supported by facts and figures, the greatest care has been taken to put it into unprovocative form. But the note deals in no uncertain terms with the relative experiences of Britain and the United States so far as war debts are concerned.

Special attention is paid to the United States declaration that suspension of payments at this time would merely thrust the burden on the United States taxpayer. The brief and uncolored recital of the British taxpayers' efforts will probably come as a surprise to the American public which, it is felt, has been inclined to believe that if the war debts were cancelled the British taxpayer would emerge on an even keel, if not actually in the lead.

The reference to restriction of imports from the United States points out that consequent on the United States tariff the United Kingdom's power to send goods to America has diminished, and the total trade of the two countries has been seriously reduced.

Resumption of the war debt payments would necessitate the United Kingdom taking measures to restrict imports of United States goods, especially of farm products, the note declares. And it emphasizes that, as the United Kingdom is America's best customer, the results "could not fail to be unpleasant."

The interests of both the United States and Great Britain, the note stresses, lie in co-operation for a revival of world trade. Insistence upon the war debt payments would further disrupt the world economy, machinery and add to the burden of both countries.

## Mine Gas Kills Five

Seventeen Others Escaped to Surface When Explosion Occurred

River Hebert, N.B.—After damp, dread scourge of the mining men, claimed the lives of five men on the level of Maple No. 10, a hole, two miles from this town.

Seventeen others who were working in the mine when the gas exploded escaped unhurt to the surface.

The five bodies were recovered by a rescue crew organized by the local firemen. They bore no marks of injury, and mine officials said they believed the men had been overcome by "after damp."

## Honor Calgary Man

Atlantic City, N.J.—Dr. W. Herbert McGuffin, of Calgary, Alta., was named president-elect of the Radiological Society of America at the closing business session of its 18th annual meeting here. Dr. McGuffin will take office at the close of the 1933 convention which will be held in Chicago.

## Prince Has Wireless in Car

London.—The Prince of Wales has had a wireless set built into one of his cars so that he will be able to listen to broadcasts while on his travels. The set is not a portable, but is built into the car in a box concealed under the foot-rest for passengers in the rear seats. The aerial is hidden in the roof.

## Bank Manager Recovering

London.—Sir Frederick Williams-Taylor, vice-president and director of the Bank of Montreal, who has been suffering from accidental poisoning, hopes to be sufficiently recovered shortly and will sail with Lady Williams-Taylor for Nassau, Bahamas, where they will spend the winter.

Alberta Farmers Institute Boycott Huxley, Alta.—Three hundred farmers of the Elmore Huxley district have decided a boycott on sherry and tax sales and pledged themselves to refrain from delivering grain to market unless higher prices than at present prevailing were paid.

W. N. U. 101

## Canada Big Winner

Dominion Captures Eight Titles at Chicago Horse Show

Chicago.—As the awards in the international livestock exposition and the hay and grain show began to pile up, it became apparent that the Dominion has annexed eight crowns out of a possible 15, and secured victory in all classes entered.

Vernon, British Columbia, turned in the biggest upset of the show when M. S. Middleton, captured the crown for the best type of sire in the show, beating the favorite, Albert Robbins, of Laura, Sask., to second place.

In the durum wheat competition, George Avery, of Kelo, Sask., scheduled to take the crown, was forced to second place by the showing of T. E. Smith's samples which later took the reserve championships to Herman Treile's winning sample of hard red spring wheat.

Alberta led in the capturing of the coveted crown with Herman Treile's seconded the most important horse in the show—the grain champion horse—for the fourth time, while three other Albertans scored, Fred Hann, of Goodfame, taking the oats crown, Fred Hann taking the crown for alfalfa seed, which was the best of both divisions, and Eric Anderson, of Wembley, who took the timothy crown.

From Saskatchewan, George Avery, of Kelo, won the fax honors and has taken two seconds to date in the exhibits he has entered. Centria has taken two crowns, field peas and the other in field beans.

## Benefit to Children

Claims Salmon Oil Twice as Potent as Cod Liver Oil

Washington.—A new aid to health of children, discovery that salmon oil is twice as potent as cod liver oil in fighting the widespread childhood disease of rickets was announced by the United States Children's Bureau.

Salmon oil contains twice as much vitamin D, the vitamin necessary to prevent and cure rickets, as does cod liver oil, one of the best known anti-rickets medicines.

The experiments were carried out with material supplied from Vancouver by H. H. Beard, in charge of research work for the Canadian Fishing Company, Limited.

## Worth the Money

Russian Citizens Must Pay Staff Price to Leave Country

Moscow.—Russian citizens are to be allowed to leave the country if they can pay the staff price in foreign currency.

The government tourist agency announces it will accept orders for visas from individuals who desire to leave Russia for permanent residence abroad. The cost, to be paid in foreign currency, is 500 rubles for workers and 1,000 rubles for all other classes. The rule is nominally without limit on the number of visas.

The foreigner will get his outgoing visa for the same charge assessed by his country against a Soviet passport by "after damp."

## Accidental Shooting

Grand Falls, N.B.—Thinking he was aiming at a bear, Rev. E. Parkinson, rector of St. Ansgar church at Salmon, N.B., fired. Donald McDonald, 20, Anfield, N.B., fell fatally wounded. The bullet passed through his body and stunned his younger brother, Neil, whose head was grazed.

## Had New Fraud Scheme

Sault Ste. Marie.—Relief officials checking up relief lists here discovered a Russian living in the east had secured relief for five months for the care of five children living in Russia. He will be prosecuted.

## COMMITTEE APPOINTED TO FIX REPRESENTATION IN PARLIAMENT

## Captured Oats Title

Fred Hann Had Three Years' Experience.—Herman Treile, Beaver Lodge, Alta.—Fred Hann, farmer of the Goodfame district, 25 miles west of Beaver Lodge, who captured the oats championship at the Chicago grain exposition, had three years' experience under the wing of Herman Treile, of Wembley, Alta., wheat king of the Chicago exhibition and noted agriculturist.

Hann lived on a homestead on Spring Creek. He is a Dane from the German province of Holstein and spent three years as a prisoner of war in France when captured by the French during a raid. He came to this district five years ago after spending three years in the employ of Treile.

The sample of oats with which he captured the Chicago crown came from a ten-acre field which produced 100 bushels to the acre and had a stand of 5 1/2 feet. The average weight was 57 pounds to the bushel.

## NEW RULE TO BAR WINNERS AT CHICAGO SHOW

Chicago.—Under a new rule adopted by the management of the International Hay and Grain Show, after an exhibitor has won the highest award obtaining in a crop, category, three times, he will then be considered a "super-crop" man and barred from competition for three years before he can again compete in the class in which he won the crown.

This applies to any exhibitor whether he has had consecutive wins or the laurels spread over a number of years.

The new rule will mean that Herman Treile, Wembley wheat king, a four-time champion, will not be able to compete in the winning wheat classes again until 1936, and it will also bar Mrs. Mary E. Maycock, of Milford, Ont., who for three years has annexed the blue ribbon for the champion sample of beans with her navy exhibit.

In announcing the adoption of the new rule, M. S. Parkhurst, superintendent of the show, stated it is to encourage and give new and experienced exhibitors a better chance to score in the larger prizes.

The new rule, despite the consistent victories of Dominion exhibitors, is not, it was clearly stated, aimed at Canadian exhibitors but applies to all, including C. E. Trower of Lafontaine, Ind., who won the crown for the best corn in the show. It was his third premier honor and he will be barred till 1936.

## Saskatchewan Winners

University Captures Honors at Ottawa Winter Fair

Ottawa.—University of Saskatchewan and National Breweries displayed honors in the percheron classes at the Ottawa winter fair. Leo Gaudin, owned by the Brewery, was declared grand champion percheron stallion and senior champion. The University's Romulus is reserve grand and reserve senior champion.

Highest honors for percheron mares went to the University of Saskatchewan on Charlotte, who won the grand and senior championships.

Conference of Premiers

Ottawa.—Tuesday, January 17, is tentatively proposed as the date for the Dominion-provincial conference on unemployment and allied problems. Premier R. B. Bennett stated. The premiers of all the provinces are being communicated with on the subject of the date.

## NEW FIELD MARSHAL

The Earl of Cavan, who has been appointed Field Marshal, the highest rank in the British Army, succeeding the late Lord Methuen. The Earl of Cavan is 67 years of age and served throughout the South African and the Great Wars. Lord Cavan was aide-de-camp to Lord Stanley, Governor-General of Canada, from 1901 to 1905.

## Speedy Return To Penny Postage Unlikely

British Postmaster-General Declares It Easy Form of Taxation

London.—Little hope of a speedy return to the penny post was held out by Sir Kingsley Wood, postmaster-general, when he referred to post office developments at a luncheon given by the Incorporated Society of Postmasters' association at the Cannon street restaurant, E.C.

A postmaster-general, he said, would naturally like to see a return to the penny post, but he could not recognize that there was much to be gained by such a move. The 60,000,000 which the extra half-penny on the letter produced was probably less burdensome than any other form of taxation of similar yield, while the cost of collection was nil.

The state was certainly entitled to receive from the post office adequate payments in lieu of income tax, and for the monopoly which was given to it.

## British War Debt

Stated That Britain Will Pay Installment to U.S. on Dec. 15

London.—The Morning Post says it has learned authoritatively that Great Britain has decided to pay its December 15 war debt installment to United States.

Details of the arrangement were presented to a cabinet meeting for ratification. The amount involved is \$85,550,000.

Informed quarters expected the document might prove to be the most important since the war as far as Great Britain is concerned, since it will review the whole range of inter-governmental obligations as well as the immediate debt installment.

## Would Keep Einstein From Entering U.S.

Woman Patriot Corporation Send Request to State Department

Washington.—A demand was served upon the state department that Albert Einstein, of relatively fame, be barred from the United States as an undesirable alien.

The Woman Patriot Corporation, through Mrs. Randolph Frothingham, of Brookline, Mass., the president, sponsored the request, charging that Einstein is "affiliated with more or less organized and capable groups than Joseph Stalin himself."

## To Curtail Production

Farm Seedling Strike Proposed By Alberta Farmers

Runney, Alta.—Strong support is being given the call of Runney district farmers for a wheat seedling strike next spring, according to reports reaching leading farmers in the movement.

Letters of support from members of various locals of the United Farmers of Alberta were submitted at a meeting of the Runney local, and one report said 100 locals of the farm organization favored the strike.

Official recognition by farm organizations has not yet been given the strike. The Alberta wheat pool discussed the proposal but declined action and the plan will be debated when the annual convention of the United Farmers of Alberta is held in Calgary in January.

## Edmonton Flyers Injured

Ice Forming on Wings of Machine Caused Crash

Edmonton, Alta.—Great "McGill" crash, Edmonton pilot, suffered a broken leg and other injuries, while his mechanic, Christopher Green, was hurt less seriously, coping with a bad shaking up, when their aeroplane crashed a few moments after taking off from the city airport.

Ice forming on the wings of the plane caused the crash. The machine was badly damaged.

## GAS EXPLOSION CREATES HAVOC IN MONTREAL

Montreal.—Ten persons trapped in a three-story dwelling here was rescued, and fires were satisfied that the disastrous series of explosions in sewers and gas mains on the north end of the city had claimed no lives.

The building collapsed when a terrific explosion occurred in the main directly beneath it. Ten persons were trapped but fires and injuries from the explosion directed into the wreckage and pulled out the family of Frederick Verrelles and a family named Caron.

They were taken to hospital suffering from cuts, bruises and burns but were not seriously injured.

Altogether some 20 persons were injured as the explosion ripped through one street after another, damaging miles of sewers and tearing up miles of street paving in an area 10 blocks long by eight blocks wide.

The district affected is bounded by Dufferin street, St. Lawrence boulevard, Jean Talon street and St. Hubert street. Damage estimates could not be gauged early, but the disaster meant work for thousands of unemployed in effecting repairs.

The cause of the disaster was unknown. The Montreal Light, Heat and Power Consolidated issued an official statement advancing the theory that the first explosion was caused by a sewer explosion of gasoline or other inflammable material and that the blast broke a gas main.

More than 100,000 huddled terror-stricken in their homes for three hours as the explosions raged out after another, ripped up paving, smashed windows and culminated in the collapse of the three-story building which immediately caught fire. The building is situated at the corner of Dufferin and St. Valer streets.

A manhole at the intersection of St. Denis and Belanger streets shot 20 feet into the air. A terrific roar followed. Sheets of flame belched out for three-quarters of a mile and the district was covered with a pall of greasy, black smoke.

That was the beginning of the city's worst sewer explosion disaster. For the next three hours, blast after blast struck more and more fire into the hearts of a sixth of the city's population.

All over Montreal the blasts could be heard. Firemen from 22 stations rushed to the district. Over 200 police were concentrated in the area. Ambulances clanged. So great was the danger of wholesale panic that advice was broadcasted warning the people to stay at home and be calm.

nitalkit and the boy wanted heat in the district was terrific as flames were shooting 20 to 30 feet high from all the manholes. Not one house on Belanger street from St. Hubert to St. Lawrence, 12 city blocks, had a window pane intact. The whole area affected was in total darkness shortly after the first explosion and all traffic was tied up in hopeless confusion until police could straighten it out.

## INFLATION OF CURRENCY IS SOUGHT BY U.F.O.

Toronto.—The United Farmers of Ontario at their annual convention were voted to become affiliated with the Co-operative Commonwealth Federation headed by J. S. Woodsworth, Winnipeg Labor member of parliament.

Miss Agnes MacPhail, Progressive member of parliament, and William Irvine, United Farmers of Alberta member, spoke strongly in favor of the affiliation.

The U.F.O. decided to maintain its own identity, however.

Instant action by the Canadian government for the inflation of currency is sought by the United Farmers of Ontario, who telegraphed Premier Bennett as follows:

"Representative mass meeting of Ontario farmers demand immediate inflation to point where prices of agricultural products are sufficient to meet fixed charges, restore purchasing power and maintain decent standards of living. Present desperate conditions make such action imperative."

In addition, the United Farmers will take the lead in circulating throughout the rural sections of the province, petitions which ultimately will be placed before the government to the same effect.

Led by Miss Agnes MacPhail, member of parliament for South-east Grey, the convention threatened that the production of rural sections of the province, petitions which ultimately will be placed before the government to the same effect.

"I want inflation and the issue of currency against our resources and goods and I don't want it done through the chartered banks of Canada," Miss MacPhail declared. "You wouldn't follow Australia, Argentina and Great Britain. Now you must follow them or you will be starving. Now I hope you will show some united action. Move at once, aggressively, into the task of constructing a new social order."

## Dominion-Provincial Parley

January 17 Has Been Selected as the Opening Date

Ottawa, Tuesday, January 17, has been fixed definitely as the date for the opening of the Dominion-Provincial conference on unemployment and allied problems. The government announced its intention to this effect was made by Prime Minister R. B. Bennett.

Telegrams have been received from each of the provinces, of the several provinces; and all provinces, it is stated, will be present at the opening of the parley.

The conference on unemployment will be one of the major subjects on the agenda.

## London Market Has Poultry From Prairies

Consignment of Fresh Killed Fowl Sent From Winnipeg

London.—A fine showing in the famous Smithfield meat market, in the heart of London, of Canadian products attracted the Canadian High Commissioner and Mrs. Howard Ferguson.

It was the first consignment ever sent here of fresh-killed unfrozen turkeys and chickens which had been sent by the poultry pool, of Winnipeg, Man.

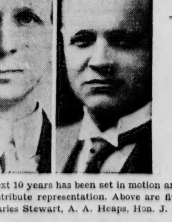

The consignment will likely obtain about 10 pence a pound, including cost, insurance and freight.

## Boy Scout Movement Grows

Ottawa.—An increase in the registered enrolment of Boy Scouts and Scout leaders to over 60,000, and a substantial growth of interest amongst French-Canadian boys, were shown by the reports presented at a meeting of the executive committee of the Canadian Council of the Boy Scouts' association, presided over by the governor-general, as chief scout for Canada.

## Radio Appointments

Ottawa.—E. A. Weir, Montreal, director of radio for the Canadian National Railways, has been named to succeed Mr. G. H. MacNeil, Canadian radio broadcasting commission, and E. C. Buchanan, president of the parliament of the radio and television commission, as the new Canadian radio correspondent of the Toronto Star. Night, has been named publicity chief for the commission.

## McCullough Bros.

Champion's Leading Merchants

### Local and General

Mrs. Hugh Frame of Brant  
underwent an operation in the  
Holy Cross hospital Monday,  
and is reported to be doing as  
well as can be expected.

Don't worry. Let Campbells  
solve your Xmas gifts for the  
men. And don't forget our  
nice silk hose for the ladies.

F. Clever, Walt Racher, F.  
Racher and A. Hopkins motor-  
ed to Calgary Monday.

Mrs. J. M. Moffatt was a din-  
ner hostess on Tuesday evening  
when her guests included Miss  
Cook, Miss Cameron, Miss  
Clarkson and Miss McEwen.

Just 15 grab boxes left at  
Campbell's. Wrist watch and  
cameras still waiting for some  
lucky person.

The spell of cold weather has  
made it possible to commence  
making ice at the rink, and at  
present, activities in that line  
are being carried on practically  
continuously. It is anticipated  
that curling and skating will be  
in full swing in a few days.

The local badminton players  
postponed their games sched-  
uled to be played at High River  
on Tuesday night due to the  
inclement weather and the  
death of a member of the High  
River club.

Rev. Father John A. Cun-  
ningham, who for the past  
four years has been connected  
with the parish of St. Mary's  
Cathedral in Calgary, has been  
transferred to Champion.  
Father Cunningham succeeds  
Rev. Father McAdam and con-  
ducted his first church service  
at 11 o'clock on Sunday, De-  
cember 4.

Get your skates ground at  
Gardner's. Badminton rackets  
restung and repaired.

## Dressed Turkey

We will buy dressed Turkeys  
any quantity until and in-  
cluding Tuesday Dec. 13

See us for Prices, etc.

**HORACE E. GILL**

### Ladies Aid Bazaar Draws Good Crowd

The annual bazaar and tea,  
which was held by the mem-  
bers of the Ladies' Aid, attract-  
ed many guests to the Com-  
munity Hall on Saturday after-  
noon. The basement made an  
attractive setting for the  
bazaar, where the guests found  
many Christmas suggestions at  
the many tables. These gift  
tables were convayed by Mrs.  
McIntyre, Mrs. M. Moffatt, Mrs.  
Campbell, Miss Rheta Camp-  
bell, Mrs. A. Baker, Mrs. Hor-  
arth and Mrs. Dawson. Mrs.  
Munhard and Mrs. Orr were in  
charge of the home cooking  
table and Mrs. A. W. Jopling  
and Mrs. E. F. Frieso presided at  
the booth of home made candy.  
Mrs. Latiff, assisted by mem-  
bers of the Ladies' Aid, was in  
charge of the tea room.

The Ladies had an extremely  
successful afternoon, clearing  
approximately \$110. They  
wish to thank all those who  
attended and those who re-  
sponded so readily in contrib-  
uting articles and home pro-  
duce.

Mrs. H. Higgins entertained  
the Amity Club at her home  
on Wednesday, when a particu-  
larly enjoyable afternoon was  
spent. She was assisted by  
Mrs. C. Versluis. Town guests  
included Rev. and Mrs. Dawson,  
Mr. and Mrs. F. Watts and Mrs.  
Stephenson.

McCullough's are making  
their Christmas showing this  
week. If you want to get a  
wonderful selection of useful  
gifts for every member of the  
family, call and make your  
selection early. A small de-  
posit will hold any article until  
needed.

### Complete Change in Train Service

The Champion train ser-  
vice to take effect December  
11 is as follows.

Southbound, daily except  
Sunday due in Champion 11:41.  
Northbound, daily, 6:45.  
There will be no night trains  
after December 11th.
